Medical Records & Treatment Summary (DEMO)

Patient	Julian Marsh · DOB 1985-09-14
Date of loss	2026-05-12
Mechanism	Motor-vehicle collision, front impact, airbags deployed

DeSoto Memorial ER

Date of service	2026-05-12
Assessment / diagnosis	Concussion (mild TBI); chest wall contusion; left knee sprain; cervical strain
Clinical note	Airbags deployed; patient transported by EMS. CT head negative for acute hemorrhage.
Causation	The injuries documented on presentation are consistent with the motor-vehicle crash of 2026-05-12.

Peace River Orthopedics

Date of service	2026-05-19
Assessment / diagnosis	Left knee internal derangement; persistent cervical strain
Clinical note	Exam consistent with acute trauma. MRI ordered.
Causation	The orthopedic findings are causally related to the 2026-05-12 collision.

Arcadia Imaging Center

Date of service	2026-05-21
Assessment / diagnosis	MRI left knee: medial meniscus tear. MRI cervical spine: C5–C6 disc bulge
Clinical note	Acute trauma pattern on imaging.
Causation	The imaging findings reflect acute traumatic injury from the 2026-05-12 crash.

Heartland Physical Therapy

Date of service	2026-05-27
Assessment / diagnosis	PT for cervical/knee injury — 18 visits over 6 weeks
Clinical note	Rehabilitation ongoing.
Causation	The need for physical therapy arises directly from injuries sustained in the 2026-05-12 crash.

Peace River Orthopedics

Date of service	2026-06-16
Assessment / diagnosis	Left knee and cervical strain improving with therapy; continue PT. MMI not yet reached.
Clinical note	Follow-up visit.
Causation	Continued symptoms remain attributable to the 2026-05-12 motor-vehicle crash.
